Languages: Dart, Go, Java, Python, JavaScript/TypeScript, HTML/CSS, Swift

Tools & frameworks: Git, Flutter, PostgreSQL, SwiftUI, Astro, TailwindCSS, Docker, Firebase

Education

Al Yamamah University (YU)

Bachelor of Science, Software Engineering

Riyadh, Saudi Arabia

Aug 2022 – Aug 2025 (expected)

- Cumulative average of 3.98/4.00, expected graduation in August 2025

Experience

Tweeq

Software Developer

Riyadh, Saudi Arabia

Sep 2021 – Present

- Transitioned from intern to part-time employee at a leading FinTech startup.
- Focused on optimizing developer experience and contributing to the mobile app functionality.
- Expanded skillset by working with various technologies, including Golang and microservices.
- Demonstrated adaptability and commitment to the company's ongoing success.

Flutter Developer Intern

Aug 2021 – Aug 2021

- Intern at a prominent FinTech startup in Saudi Arabia.
- Demonstrated proactive approach, quickly by making positive impact.
- Streamlined development workflow by introducing PR templates.
- Fostered better collaboration within the organization.
- Gained valuable insights into frontend and backend development.

NyarTech

Flutter Developer Intern

Riyadh, Saudi Arabia

Jun 2021 – Jun 2021

- Completed a one-month internship at NyarTech, a Saudi Arabian startup.
- Contributed to "Mawidy", a health tech product streamlining appointment booking and payments.
- Gained hands-on experience with Firebase and Flutter to improve app performance and functionality.

Technical Projects

Subha

SwiftUI, SwiftData, iCloud

Sep 2023 – Present

- A native app built using SwiftUI that elevates the experience of "tasbeeh" prayer for muslims.
- Used the SFSSpeechRecognizer to make "tasbeeh" using sound easy and enjoyable.
- Statistics synced across the user's devices using iCloud.

Al Yamamah app

Flutter, Go, gRPC, Protobuf, Unleash, Cloud Run, Docker

Aug 2022 – Present

- An app made to make the life of students at Al Yamamah University easier.
- Fully open source on Github [here](#).
- Benefited around 1000 students, which is about 33% of the students at my university.

Flutter Installer

Flutter

Jul 2020 – Jan 2022

- An installer for Flutter and required tooling built using Flutter to make the GUI.
- Fully open source on Github [here](#) with 425 stars.
- Supports macOS, Linux, and Windows.
